Engraved Nameplates

Anodized Aluminum

Material:

Anodized Aluminum is a matte finished coating in clear or color on the surface. The coating (color) becomes part of the aluminum surface, and resists further oxidation.

Product Description:

• Brimar's standard aluminum nameplates are engraved on one side and available in a variety of colors and sizes to better identify equipment.

Appearance:

• Corners are typically provided square with flat/straight edges.

Application:

• Nameplates are provided with mounting holes (3/16" default hole size), adhesive backing or both.

Physical Characteristics:

• Standard: 1/32" thick for engraving on one side.

Durability:

• Indoor - Indefinite
• Outdoor - 2 to 3 years

Dimensional Information:

Maximum plate size is 24 x 16"

* Other sizes available too.
