System #1 Voltage Markers will help to prevent costly disruption of fiber optic and coaxial cable by providing a fast, reliable method of identification.

- Fits cables & conduits 3/4" to 3 1/4"
- Custom voltage markers available in any design or size.
- No adhesive to worry about, the markers simply snap around the cable or conduit.

Style	1 - 99	100 - 249	250+
1E	1.50	1.20	1.05
1XSME	.85	.60	.50
9E	1.55	1.39	1.10

To Order Custom: Specify product code CUST-VM-(9E, 1XSME, 1E), legend, legend size, legend color, background color. Prices shown are per card. Remember 9E markers have 9 markers per card. No custom set up charges when 10 identical custom markers are ordered. If less than 10 identical markers are ordered, add a \$15.00 net set up charge.

THINK SAFETY! Identify electrical conduit and control panels with OSHA & NEMA

labeling methods. The labels are made from the most durable vinyl, printed with the best inks and adhesive available. Choose from our list of stock legends or create your own custom wording.
