

# LASER ETCHED ANODIZED ALUMINUM

**Laser Etched** Anodized Aluminum Nameplates and Valve Tags will last longer in almost any environment. Brimar uses .032 Anodized Aluminum to create a neat, sharp contrast against the background color. There is no color fill on these plates or tags, the character color is natural aluminum. The illustration below gives a close representation of the actual colors. Call for pricing if copy or color requirements are different, or if other options are required.

## ADVANTAGES

- Rust Resistant Anodized Aluminum
- Colored On Both Sides
- .032" Thick Material
- Break, Stain, Chip And Shatter Proof Material
- Adhesive is in LEED compliance w/ SCAQMD Rule #1168 & GS-36 pertaining to VOC levels.

## Valve Tags

**No Set-Up  
CHARGES**

Please provide nameplate or valve tag list in either a Microsoft Excel or Word file for accuracy

### Standard Colors Available for Nameplates & Tags

### To Order Laser Etched Valve Tags:

Specify part number, background color, letter size, custom wording to be etched & quantity of tags. Standard layout is 1/4" top line and 1/2" bottom line.

Please indicate if different character sizes are required. OK to combine for best pricing.

### To Order Laser Etched Nameplates:

Specify part number, background color, mounting method (adhesive, holes or both), number of lines to be etched, letter size, and custom wording. If no mounting method is specified, adhesive will be provided.

**Price for nameplates is based on no more than 20 characters.**

Brimar will be happy to size your nameplate or valve tags. To size a nameplate/valve tag we need to know character size and a list showing what is to be laser etched. Call for pricing on custom sizes, custom colors and larger quantities.
