

ARROW CARDS & BANDING TAPES

ANSI / ASME A13.1 requires the direction of pipe content flow to be identified with directional arrows. Use EZ Arrows or Arrow Banding Tape to comply. Arrows & Tapes are made using durable outdoor grade vinyl and aggressive acrylic adhesive with an extra heavy coating to ensure adhesion to a variety of pipe surfaces. A clean, dry surface and 50° F is required for installation.

Arrow Banding Tape - Premium Exact Match, the most popular method of identifying directional flow in conjunction with EZ Pipe Markers, because Arrow Banding Tape provides the identification of the directional flow and completely wraps around the pipe providing 360° visibility. Premium Match Arrow Banding Tape is made from the same vinyl as Brimar's EZ Pipe Markers, to provide an exact color match. This tape is UV printed to ensure a longer life. Tape is liner mounted and rolls are 30 yards long.
